February 2016

**Please forward to
colleagues who
might be interested**

Job offer: **Fish Ethology Database «FishEthoBase»**

We are looking for a colleague in our little team as of spring 2016*
to help advance our Fish Ethology Database: www.fair-fish.net/ethology

We expect candidates with the following qualities and circumstances:

- master degree in natural sciences (preferably ethology, marine or fishery biology, zoology, veterinary or related disciplines)
- provable commitment for animal welfare (preferably fish welfare)
- English level C1 (or 7 of 9)
- skilled on computer and internet
- experienced with literature research and database works
- based in Europe
- home office with fixed line internet
- free access to scientific literature
- willing to contribute half of the working capacity
- willing to travel twice a year to meet up in the team

We offer:

- freelance basis
- average 65 hours/month, with self-organised agenda respecting deadlines
- remuneration EUR 20,00/hour all-inclusive (2nd year: 25,00, 3d year: 29,00)
- project perspective until end of 2017, with good chance for continuation

Your application

- is welcome **before 15 March 2016**
- save the dates for interviews in April: 18 + 19 in Zurich + 25 in Brussels
- before applying, please contact the director of FishEthoBase for details:
Billo Heinzpeter Studer <international@fair-fish.net>

** A second post will probably be offered as of autumn 2016, for one year at least. Feel free to apply provisionally if you should not be able to join us next spring already.*
